

CURATOR TALK

Why Do We Need Photography?

Virtual talk by Louise Weinberg,
Co-Director, Director of Exhibitions/Collections and Curator
Godwin-Ternbach Museum, Queens College

Wednesday, July 28th, from 7pm to 8pm

From x-rays of the body's interior to the most recent images produced by NASA's Hubble telescope, photography shows us our world in micro to macro.

Bringing together iconic works from the permanent collection of the Museum with works from other collections including the curator's own, *Why Do We Need Photography?* serves to remind us of how we describe, commemorate, document, and communicate as human beings.

This program is presented in collaboration with Kupferberg Center for the Arts and with support in part by the Institute of Museum and Library Services. Program is FREE and registrations are required.
